Maintaining Access

Re-verification can be accomplished using the following methods:

1. **Preferred Method:** Access UpToDate in your EMR at least once every 90 days. Confirm you are logged in by locating your name in the upper right-hand corner of the UpToDate screen. This will automatically re-verify your affiliation and you will not receive any re-verification messaging. This method does not require UpToDate log in.
2. Log in to UpToDate by going to www.uptodate.com from a computer or device connected to your hospital or organization’s network. This method requires you to log in to UpToDate with your UpToDate Username and Password.

Please note: In-application & email messaging will inform you of the need to verify affiliation if you have not done so by day 80. You will receive a second alert at day 90. If you fail to re-verify by day 90, you will lose mobile and remote access. To regain access, please complete the re-verification process outlined in steps 1 or 2.
